Why isn't MY Information Displayed on the Website Instructions

Last Updated - 09/09/07

All Membership Accounts are automatically changed from "Active" to "Inactive" on the Anniversary date, if no

Membership Renewal Dues are received.

Also, when Dogman issues get returned "Address Unknown", e-mails bounce back, and phone numbers no longer

work, we lose contact with those in question, and have no way of contacting them to renew their Membership.

Once members are listed as "INACTIVE", their names and information is no longer "Published" on the Unit Pages.

The information is still in our database, but just not listed on the Website.

I would encourage anyone wishing to re-activate their VDHA Membership Account, to consider sending in at least \$20 for one year [Membership Renewal](#) to the following address:

[Robert Palochik](#)

8203 Parting Clouds Ct

Las Vegas, NV 89117-7614

You do not need to "Join" the VDHA if you are already in our database. You need to "[Renew Membership](#)". I also would encourage you to update our records with correct address and phone numbers if they have changed in any way. Your \$20 will be good for 1 full year of membership starting the first day of the month your dues are received in, by our Treasurer, and recorded.

Please don't hesitate to contact me or any of the other Board Member, with any questions you may have.
