

Line Ref.	Thailand Special Project Dogs		
1	The mission and locations that these dogs served can not be confirmed via Military records that are available at this time. We know for a fact that female untrained dogs were donated to the Thailand Government and shipped to the Royal Thai Military Working Dog School at Chantuk for breeding purposes beginning in mid-summer of 1968. The school was located near Pak Chong, Nokhon Rachsima (Korat) province. Rumors are abound concerning the use of "Special Project Dogs" for "Black Operations", especially in northern Thailand. We also know that this list is incomplete.
